COPYRIGHT NOTICE:

It is illegal to copy photographs which are copyrighted by a professional photographer or studio. We do not copy or scan any such photographs without prior written permission of the copyright owner. If you are in doubt about the application of copyright laws to heritage photographs, we are happy to help.

READ THIS NOTICE: Submitting any film, print, digital media, or images in any form to this firm for processing, printing, or other handling constitutes an AGREEMENT by you that any damage or loss by our company, subsidiary, or agents, even though by our negligence or other fault, will only entitle you to replacement with a like amount of imaging media or unexposed film and processing, if available. Restoration Services

Service Time: 8 Lab Days (1½ weeks in lab)

We scan your damaged photograph into a computer, restore it digitally, and provide you with a 4x6 print and a CD of the restoration. Your original photograph is returned to you in its original condition. Additional reprints or enlargements of your restored image can then be printed inexpensively. (Request our price brochures for digital prints, as well as options for canvas and fine art prints.)

Be aware that some flaws or textures on old prints may be more prominent when scanned than they appear to the naked eye. Please use the retouching categories below to pre-estimate your restoration fee. We will contact you before starting the work on your project if our services will be more expensive than your pre-estimate.

Original photographs between 12x17" and 16x24" require an additional \$49.95 fee for scanning oversize prints. For prints larger than 16x24", ask for a quote.

Retouched images are kept the same size and proportional dimensions as the original photograph unless otherwise instructed. Please let us know what sizes you are thinking about printing. For example, an 8x10 may crop into someone's head or arm that is visible in your 5x7 original photograph. Orders resubmitted for additional retouching or alternative cropping may incur additional charges for digital services performed and any prints.

Minor Restoration \$22.95

In this Minor Restoration category, we fix **one** of these flaws: A minor scratch, stain or crack in background of image. Removing date from a smooth background. Red-eye removal on one to four people. Reduce grain. Minor overall color and/or contrast adjustment.

We use sophisticated scanning and restoration technology to create a high resolution digital image of your restored photograph. We then print new photographs in the sizes you request, and your submitted photograph is returned in its original condition.

Light Restoration \$39.95

Two to three scratches, stains or cracks in non-detail area of image. Color or contrast adjustments to 1 or 2 areas of the image. Simple facial blemishes and glass glare (if you can still see the eyes) on one or two people. Adding spot color to black & white image.

Medium Restoration \$68.95

Three to five scratches, stains or cracks (one or two into main subject of image). Replace background using generic "studio" backdrop or customers supplied image. Recreate missing corners of simple background. Adding or removing a single person or "trading faces" from another photo. Correcting color and contrast on faded images. Glass glare that hides the eyes. Colorizing part of a black & white or faded color image.

Heavy Restoration \$94.95

Five or more scratches, stains or cracks (two or three into face or other detailed area). Recreate missing corners of moderately complex background. Adding or removing multiple people or "trading" two or three faces from other photos. Correcting color and contrast on severely faded images. Colorizing black & white or faded color image. Removing paper texture or overall cracking of emulsion.

Severe Restoration \$140.00 or more

Recreate missing areas of a complex background. Photos with multiple scratches, stains or cracks in high detail area of image (like a face). Heavily stained or mildewed prints. Removing heavy writing.
