We supply free book creation software that you can download and install on your Windows, Macintosh, or Linux computer. All book options above are available when you install our book software onto your computer. A few of the book options can be ordered either through our web portal or with our free software installed.

Shipping and Handling (S&H) charges: If you are ordering more than one book, the Volume Surcharge (VS) is added to the S&H charge for each additional book. To calculate the total S&H charge, first determine whether the order will be picked up in our store, or shipped directly to the customer. In the appropriate columns note the S&H charge and the VS for each book ordered. Select the S&H charge for the first book with the highest value, and add the VS for each additional book. For example, S&H charges for 2 - 12x12 Deluxe Hardcover books plus 1 - 5.5x5 Pocket book shipped directly to the customer will cost \$9.99 (S&H for 12x12) + \$3.00 (VS for 12x12) + \$1.00 (VS for 5.5x5) = \$13.99 total S&H charges.
