To avoid extra processing fees and to assure quick service, please follow these guidelines for *Shoebox Photo Archive* scanning:

All photos must be removed from albums and frames and put into a box. Sort the photos by size from smallest to largest. Minimum size: 2½x3½; Maximum size: 8x10.

Make sure all of the photos are facing forward and oriented so the top of each image is in the same direction. If you want the image files from both horizontal and vertical photos to be right-side-up on your CD, you must sort vertical photos into separate groups from the horizontal photos. If they are mixed together, you may request that we rotate the vertical images to appear face-up on your CD— this “rotating” service adds \$19.95 per group of up to 500 images.

READ THIS NOTICE: Submitting any film, print, digital media, or images in any form to this firm for processing, printing, or other handling constitutes an AGREEMENT by you that any damage or loss by our company, subsidiary, or agents, even though by our negligence or other fault, will only entitle you to replacement with a like amount of imaging media or unexposed film and processing, if available. The acceptance by us of the film, print, digital media, or images is without other warranty or liability, and recovery for any incidental or consequential damages is excluded. 90-day unclaimed orders will be considered abandoned.

Reprints made at time of scanning

Kodak Royal Paper. Matte finish is standard; glossy is available on request.

4x6 or 3½x5 of **all** photos in your order.....30 each
4x6 or 3½x5 of **selected** photos* (25 minimum)....38 each

* Group and label the selected photos you want printed into a separate bundle, or order photos from the CD we create.

Index Prints and Proof Sheets

Index Prints and Proof Sheets are a handy tool for locating and retrieving images from your library of CDs. They are priced **by the sheet** with 25 or 40 images per sheet.

4x6 Index Print with 40 images per sheet 1.49
5x7 Proof Sheet with 25 large images per sheet.... 2.49
8x10 Proof Sheet with 40 large images per sheet.. 5.98

DVD Slideshow

We can also produce a professional “slide show” of your photographs (and slides) that will play on your TV with a standard DVD player. See our **DVD Slideshow** brochure for scanning prices and complete details.

Shoebox Photo Archive Scanning

Service Time: 5 - 7 Lab Days

Perhaps you have a shoebox full of precious photographs in your closet. For a very economical price we can scan those photographs to a CD so you can preserve those memories, make backup copies or reprints, and distribute them to your relatives.

Two options for *Shoebox Photo Archive* scans:

- **Standard Resolution** (300 ppi) scans are ideal for printing up to two times the size of your original photographs, or for emailing and internet sharing.
- **High Resolution** (600 ppi) scans will produce high quality photos four times as large as your original photographs. Images from both kinds of scans are saved as high quality JPEG files.

PPI means "Pixels Per (Square) Inch"

300 ppi

600 ppi

The greater the PPI when scanning, the sharper the images will appear, especially when enlarged.

**SAVE
20%**
on all scanning prices in
this brochure through
March 31st, 2020

If there is information written on the back of your original photographs that you want scanned, we can scan both sides of those pictures. These will count as two scans. Group the photos for double-sided scans separately and clearly mark the group: "**Scan Front & Back.**"

Photographs for *Shoebox Photo Archive* scanning can be scanned in a specific sequence for an additional \$34.95 per group of 500. To order this service, number the sequence on the back of each photo (no sticky notes) and **submit the photos in that sequence**, rather than sorting your photos by size. This \$34.95 fee also includes our service of rotating all images to the correct orientation (horizontal or vertical) before saving the images to CD or DVD.

Photos that are fragile, folded, ripped, mounted or in albums, sticky or having rough edges or staples **cannot** be scanned with our *Shoebox Photo Archive* service. To scan such photographs, ask one of our associates about our custom print scanning services (scanning prints up to 8x10" size costs between \$2.25 and 5.99 per scan).

To scan negatives, slides or transparencies, request our *Scanning Services* brochure for complete details.

No Refunds Allowed	Shoebox Photo Scanning to CD	300 ppi Standard Resolution Scanning	600 ppi High Resolution Scanning
	Up to 100 Photos	68.95	94.95
Up to 500 Photos	144.95	189.95	
Additional group of 100	35.00	55.00	

The cost of one set of CD(s) are included in the prices above.

Additional Options
