Enlargements from Digital Images

Service Time: 5 Lab Days

Enlargements as large as 44x96" are printed with Epson Archival inks on Luster surface photo paper. Non-standard sizes are available; they are priced as the standard size that they would fit on (e.g. a 19x19" print is charged as a 20x24). Our qualified technicians optimize the color and exposure of each image.

When submitting digital files for enlargements, be aware that large image files are needed to produce optimum quality. We can print digital files from most file formats and application programs. When preparing files in Photoshop, please "flatten" layered files and save as TIFF or JPEG.

Professional quality enlargements from negatives, slides, transparencies or prints can be made with additional scanning charges (see pages 4 & 5). For most enlargements from 35mm slides or negatives, a \$2.99 *Enlargement Quality* scan will produce an acceptable *Wide Format* print. For very fine detail or critical sharpness, order a *Custom 120* or *Large File 120 Film Scan* (page 4).

Mounting adds 2 lab days to the service time. Mounting price is in addition to the enlargement price and includes both the mount board & mounting service.

Fine Art Prints

Service Time: 5 Lab Days

Fine Art Prints are printed with Epson Archival inks on Canvas or Fine Art Paper. The texture of the paper is visible in the final print. Our qualified technicians optimize the color and exposure of each image.

As an option, we can apply one of three painting styles to your image: Watercolor, Colored Pencil or Oil Paint. An enhancement charge of \$20.00 includes an 8x10" proof print on standard photo paper. After you approve the proof we proceed with the *Fine Art* printing.

Fine Art Prints have the same file size concerns and scanning options as standard enlargements—See notes in the left column, paragraph 2 and 3.

Fine Art Paper (Smooth or Textured)

This paper is ideal for the watercolor or colored pencil painting styles (above).

Canvas

Canvas is ideal for most painted styles. We leave an extra 2" border around all 4 edges of the print to allow for stretching the canvas over a frame. Another option is to mount the canvas print on mount board.
